UNITS

Note to researchers: The following segment of this guide is arranged by branch of service, with individual units listed thereunder. Due to inconsistencies in the format of reporting the units that individuals served in, the units are listed in either a numeric section or an alphabetical section. It is suggested that researchers check under all possible designations of a particular unit, from highest level of organization (Army, Corps, Air Force, etc.) to smallest (Battalion, Company, etc.), in case the full designation of the unit was not provided. Individuals which stated only their branch of service are

not included in this portion of this guide, since that information can be readily obtained from the "Finding Aid At a Glance" created for the entire VHP collection.

UNITS – ARMY

1st Army , 9th Div.
Colsher, William M.
